

CONTACT LIST: ORGANIZATIONS WORKING ON ENVIRONMENTAL AND HEALTH ISSUES IN HAYDEN AND WINKELMAN, AZ

U.S. Department of Health and Human Services
 Agency for Toxic Substances and Disease Registry

AGENCY FOR TOXIC SUBSTANCES AND DISEASE REGISTRY (ATSDR) protects

communities from harmful health effects related to exposure to natural and man-made hazardous substances. We do this by responding to environmental health emergencies; investigating emerging environmental health threats; conducting research on the health impacts of hazardous waste sites; and building capabilities of and providing actionable guidance to state and local health partners. Information on ATSDR's 2015 lead and arsenic testing and 2017 follow up arsenic testing is available at: <https://www.atsdr.cdc.gov/sites/hwaz>.

ATSDR can answer questions about:

- Results of 2015 lead and arsenic testing and 2017 follow-up arsenic testing
- Ways to reduce your exposure to lead and arsenic
- Health and exposure

Ben Gerhardstein	Environmental Health Scientist	415-290-3360	bgerhardstein@cdc.gov
Jamie Rayman	Health Educator	415-947-4318	jrayman@cdc.gov

U.S. ENVIRONMENTAL PROTECTION AGENCY (USEPA) – SUPERFUND PROGRAM
is responsible for cleaning up some of the nation's most contaminated land and responding to environmental emergencies, oil spills and natural disasters.

USEPA Superfund can answer questions about:

- ASARCO Hayden – Superfund Alternative Site

CONTACTS

NAME	TITLE	PHONE	EMAIL
Vivian Lopez	Remedial Project Manager	415-972-3076	Lopez.Vivian@epa.gov
Gavin Pauley	Community Involvement Coordinator	415-535-3725	Pauley.Gavin@epa.gov

U.S. ENVIRONMENTAL PROTECTION AGENCY (USEPA) – AIR DIVISION
guides the federal management, implementation, enforcement and technical oversight of ambient air quality and indoor air quality, including control of pollution from stationary and mobile sources, prevention of radiation exposure and protection of the stratospheric ozone layer.

USEPA Air Division can answer questions about:

- Air quality in Hayden/Winkelman
- Implementation of the 2015 Consent Decree

CONTACT LIST: ORGANIZATIONS WORKING ON ENVIRONMENTAL AND HEALTH ISSUES IN HAYDEN AND WINKELMAN, AZ

U.S. ENVIRONMENTAL PROTECTION AGENCY (USEPA) – BROWNFIELDS PROGRAM provides grants and technical assistance to communities, states, tribes and others to assess, safely clean up and sustainably reuse contaminated properties.

USEPA Brownfields can answer questions about:

- Targeted Brownfields Assessment in Hayden-Winkelman area

CONTACTS

NAME	TITLE	PHONE	EMAIL
José García	Arizona Brownfields Lead and Tribal Grant Lead	213-244-1811	garcia.jose@epa.gov

ARIZONA DEPARTMENT OF ENVIRONMENTAL QUALITY (ADEQ) – WASTE PROGRAMS DIVISION

Identifies, assesses and cleans up soil, groundwater and surface water contaminated with hazardous substances. The program conducts these efforts throughout Arizona with support from state and federal funds. The program also oversees privately-funded cleanup efforts.

ADEQ Waste Programs Division can answer questions about:

- ASARCO Hayden – Superfund Alternative Site

CONTACTS

NAME	TITLE	PHONE	EMAIL
Jerry Helton	Project Manager	520-209-4265	Helton.Jerry@azdeq.gov
Mary McGillicuddy	Community Involvement Coordinator	602-771-2336	Mcgillicuddy.mary@azdeq.gov

ARIZONA DEPARTMENT OF ENVIRONMENTAL QUALITY (ADEQ) – AIR QUALITY DIVISION

The Air Quality Division protects public health and the environment by controlling present and future sources of air pollution. Core responsibilities include: Air Quality forecasting, monitoring and analyzing data, issuing permits, compliance inspections, vehicle emissions testing, asbestos and preserving visibility in urban areas, national parks and the wilderness.

ADEQ Air Quality Division can answer questions about:

- Air Quality Monitoring
- Hayden Risk-Based Air Quality Forecast for Lead
- ASARCO’s Air Quality Control Permit
- Air Arizona Mobile App to stay informed about air quality

CONTACTS

Mannie Bowler	Community Liaison	928-301-0018	Bowler.mannie@azdeq.gov

ARIZONA DEPARTMENT OF HEALTH SERVICES (ADHS) - ENVIRONMENTAL TOXICOLOGY
The Environmental

Toxicology Program assists communities in understanding potential public health effects from known or suspected environmental exposures. The program works with other agencies such as ADEQ and USEPA, to evaluate potential health effects from environmental exposures. The program prioritizes projects which discuss the health effects at USEPA Superfund sites. However, the program has also completed health consultations for other sites such as brownfield sites.

ADHS can answer questions about:

- April 28-29, 2017 blood lead testing for community members
- Tips for preventing childhood lead poisoning
- Arizona’s Childhood Lead Poisoning Prevention Program

CONTACTS

Ginny De La Cruz	Childhood Lead Poisoning Prevention Program Manager	602-364-3884	ginny.delacruz@azdhs.gov

Central Arizona Governments (CAG)

The CAG was incorporated in 1975. CAG was established by Executive Order 70-2 and signed

by the Governor of Arizona to provide effective regional planning services to Gila and Pinal counties. The goal of Executive Order 70-2 was to promote a “community of interest” and to preserve the boundaries of the region.

CAG can answer questions about:

- Lead-based paint testing and abatement project funded through the EPA/Asarco consent decree

GILA COUNTY ENVIRONMENTAL HEALTH SERVICES AND EMERGENCY MANAGEMENT

The Gila County Division of Health and Emergency Management strives to advocate, educate, improve and monitor the public health and safety in Gila County, by providing the highest level of quality, integrity, and respect to those we serve.

Gila County Health & Emergency Management performs:

- Food facilities inspections
- Investigates public health nuisance complaints on private properties
- Inspects the school cafeteria and grounds
- Assists with animal control
- Responds to natural or man-made disaster

Superfund Research Center

UNIVERSITY OF ARIZONA (UA) – SUPERFUND RESEARCH PROGRAM

Using an interdisciplinary approach, we study hazardous waste issues in the U.S. Southwest (including Arizona-Sonora border and Native Nations). We focus on arsenic and mine tailings. Our biomedical and environmental scientists collaborate to investigate risks, develop remediation strategies, and translate research findings to government stakeholders and the affected community.

UA can answer questions about:

- Past dust research in Hayden/Winkelman
- Ways to reduce your exposure to lead and arsenic

Raina Maier	Director, UA Superfund Research Program Department of Environmental Science	520-621-7231	rmaier@ag.Arizona.edu
Monica Ramirez-Andreotta	Director, Research Translation Core	520-621-0091	mdramire@arizona.edu

The University of Arizona's Project Harvest, in partnership with Sonora Environmental Research Institute, Inc. is a co-created citizen science project focused on evaluating environmental quality and health literacy outcomes.

Project Harvest can answer questions about:

- The quality of harvested rainwater, soil, and plants
- Ways to reduce your exposure to lead and arsenic
